

Mantu Pani

Staff Engineer — AI & Backend Architect

Bengaluru, India | +91 7873160006 | mantupani17@gmail.com | linkedin.com/in/mantu-pani | github.com/mantupani17

SUMMARY

Results-driven Staff Engineer with 8+ years designing scalable backend systems, cloud-native microservices, and AI-powered enterprise platforms. Specialized in Node.js, NestJS, AWS, distributed systems, and Generative AI solutions using LLMs, LangChain, LangGraph, and MCP servers. Strong track record architecting high-performance applications, building secure cloud infrastructure, leading engineering teams, and implementing CI/CD and DevSecOps pipelines.

CORE COMPETENCIES

Backend & Architecture	Node.js, NestJS, Express.js, AdonisJS, TypeScript, REST APIs, GraphQL, Microservices, Event-Driven Architecture, System Design
AI / Generative AI	OpenAI, Claude, LangChain, LangGraph, LangSmith, MCP Servers, AI Agents, Multi-Agent Systems, Agentic Workflows, Prompt Engineering, RAG Pipelines
Cloud & DevOps	AWS (Lambda, EC2, S3, SQS, SES, Cognito, CloudWatch, SNS, Secrets Manager), Azure (Storage, Active Directory), Docker, Jenkins, GitHub Actions, CI/CD, CloudFormation, DevSecOps, SonarQube, Snyk
Databases & Search	MongoDB, PostgreSQL, MySQL, DynamoDB, Redis, Elasticsearch
Frontend	React.js, Next.js, Angular, JavaScript, HTML5, CSS3
Testing & Tools	Jest, Mocha, Pactum, Git, Bitbucket, GitHub, Agile/Scrum

PROFESSIONAL EXPERIENCE

Staff Engineer — Altimetrik India Pvt Ltd (Client: Blackhawk Networks)

Feb 2025 – Present

- Architect scalable enterprise-grade microservices using Node.js, NestJS, AWS Lambda, and EventBridge.
- Design AI-powered workflow automation platform using LLMs and LangChain; built a LangGraph-based recommendation engine for calendar events and workflow actions.
- Developed the Notification Manager platform — scheduled, interval-based, and immediate campaign workflows — using AWS Lambda, Step Functions, and EventBridge.
- Built the Notification Manager GenAI system, generating campaign workflows from plain-English prompts via LangChain.js and Ollama.
- Developed reusable AI skills and agent-compatible tools for autonomous workflow orchestration; implemented multi-agent orchestration workflows.
- Implemented CI/CD pipelines using Jenkins, GitHub Actions, and CloudFormation.

Module Lead — Happiest Minds Technologies (Client: Workboard)

Dec 2021 – Feb 2025

- Led backend engineering and microservices development using NestJS, MongoDB, and AWS across multiple client projects.

- Designed and built Career Edge, a job-posting platform, from scratch — posting, search, apply flows, and employer dashboards on a microservices architecture.
- Built a secure file-upload microservice with ClamAV virus scanning, encryption, and MongoDB change streams for real-time processing.
- Developed a Locale Service using Google Translator APIs to support multi-language content.
- Migrated legacy PHP/React modules to NodeJS/NestJS for improved scalability while preserving backward compatibility.
- Mentored developers and conducted architecture and code reviews.

Software Engineer, MEAN Stack — LitmusWorld

Feb 2020 – Dec 2021

- Built a SaaS customer-experience survey platform with dynamic questionnaire generation, role-based access, and analytics dashboards.
- Used Angular, Elasticsearch, and Docker to deliver real-time insights from customer feedback.
- Wrote custom JavaScript to support client-specific question rendering and debugged production issues via AWS CloudWatch.

Software Developer — Mintbook

Jan 2018 – Feb 2020

- Built an LMS (Learning Management System) from scratch, supporting course upload, assignment, and content-consumption tracking, with subscription-based access.
- Deployed the LMS for clients including Canara Bank, GSIT, NACO, and the Karnataka Public Library Department.
- Developed the backend for a Digital School System (DSS), an IoT-based digital education device, including dynamic pricing logic by grade level.

EDUCATION

Master of Computer Applications (MCA) — Roland Institute of Technology, Berhampur, Odisha (2017)

Bachelor of Computer Applications (BCA) — Disha College of Management and Technology, Berhampur, Odisha (2015)

ACHIEVEMENTS

- PDES Superstar Award — FY2025
- Multiple Quarterly Excellence Awards
- Excellence Award for Project Delivery

LANGUAGES

English & Hindi: Proficient (Read, Write, Speak) | Odia: Native | Telugu: Basic (Read only)
